

The pump for cleaning

EKP 20

Application

Pump for cleaning P 20 is used to remove limescale and rust from the walls of pipes of small water systems.

Features

The pump for cleaning ECO 20 is constructed as part of the system, it is resistant to chemicals and enables effective cleaning, without need to disassemble the system.

Advantages

- The container is shockproof,
- simple to use,
- Provides continuous operation.

Pump for cleaning	EKP 20
Pressure height	Up to 40 m
Flow rate	6 l/min
volume	12 l
Temperature resistant up to	35°C
Mass	9,0 kg
Motor	Single phase 230V~ / 50Hz / 0,10 kW / 1.000 min ⁻¹
